Manufacturer's Certification for Eligible Insulation Tax Credits

Advanced Fiber Technology, manufacturer of AFT Carbon Smart Cellulose Insulation and AFT Carbon Smart Plus Cellulose Insulation, certifies our insulation products are eligible building envelope components that qualify for the Federal Tax Credit for the Energy Efficient Home Credit allowed under IRS Section 25c for energy efficient retrofits which is currently valid thru December 31, 2025.

The homeowner should consult with a tax preparer related to the application and appropriate IRS form criteria. Retain this certification along with financial records for tax recordkeeping purposes. It is not required for the taxpayer to submit this with their tax return however it should be maintained to establish entitlement to the credit along with expenditure receipts.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
